GENERAL INFORMATION

This directory of University of Illinois departments located in Chicago includes lists of administrative officers of hospitals, institutes, and divisions of the University and of the State Department of Public Welfare, University officers and heads of departments, and members of committees. A classified telephone directory begins on page 11.

The alphabetic list beginning on page 16 includes all members of the Chicago departments of the University of Illinois, the associated staff members of the State Department of Public Welfare, and a few others engaged in closely related work. Persons whose names are marked with an asterisk (*) are married. The title shown after each name is the official title for the current year. No distinction is made between full-time and part-time positions nor between those with salary and those without salary.

Letters in parenthesis after titles indicate organizations as shown in the mailing list below. All persons whose titles are followed by the word "Rush" in parenthesis are members of the College of Medicine unless otherwise indicated. The street address of each organization is given below for mailing purposes. All street addresses in Chicago listed herein are within postal zone 12 unless otherwise noted. Please use a postal zone number when addressing mail.

USE OF TELEPHONES

GENERAL INFORMATION.—If you are going to be away from your telephone, arrange to have someone answer it or notify the switchboard operator in advance of your absence so she can take messages. Please do not call Information until you check the number in the telephone directory. In the Bell System the work of 6,000 operators each day is spent in looking up numbers listed in directories. Their work otherwise would go toward the handling of vital war calls. If you are in doubt about a number, please look it up in the directory first. Be brief on all of your calls.

LOCAL CALLS.—To make a local call from one extension to another within the buildings served by the University's intercommunicating telephone system, remove the receiver, listen for the dial tone, and dial the extension number desired.

CHICAGO CALLS.—To make a city call, dial "Operator" and give her your name and extension number. Hang up the receiver and she will ring you back. When you hear the dial tone, dial the first three letters of the exchange and all the accompanying numbers. If you have a plan system, follow the above instructions, but do not hang up. When requesting outside parties to call you, always give them your local extension number in addition to MONroe 3900, to aid them in having their calls completed without delay.

TOLL CALLS.—Charges are made for all calls to telephones listed in the Suburban Directory and for long distance calls. No toll calls, telegrams, or long distance calls are to be placed except through the University switchboard. For such calls, after giving the University operator your name and extension number, tell her whether the call is "business" or "personal," so as to facilitate the billing of charges. Long distance telephone lines are crowded these days with urgent war calls. Do not make unnecessary long distance calls to Washington, D.C., or other war centers. When you do have an essential long distance call, be brief. To reduce the number of call-backs, plan your calls so that you can reach the person you are calling at the time you call.

IN CASE OF FIRE.—First, dial "Operator" and tell her the name of the building, the street address of the building, and the number of the room in which the fire is located. Next, turn in an alarm at the nearest fire-alarm station. Then try to put out the fire. Remember that the "soda-acid" extinguishers should never be used where electric wires are involved in a fire.

TO CALL THE POLICE.—Dial extension 555 and give the necessary information including your name, the room number and building where help of the police is wanted, and the nature of the trouble.
